

## Who We Are

MDC Global Solutions is a trusted advisory partner dedicated to helping defense contractors build clarity, confidence, and operational discipline in their cybersecurity and compliance programs.

We specialize in translating complex CMMC requirements into practical, sustainable processes that work in real environments where people, systems, deadlines, and mission demands intersect.

Our team brings deep expertise in governance, evidence development, and readiness support, enabling organizations to make defensible decisions, reduce risk, and prepare for assessment with certainty rather than theory. At MDC, we don't just guide compliance, we empower organizations to operate securely and confidently as part of the defense industrial base.

Making CMMC  
Compliance  
Achievable and  
Sustainable

## Capabilities

Support, Service, Expertise

- ✓ Training and Education
- ✓ IACET Accreditation
- ✓ Advisory and Readiness Services
- ✓ Implementation and Managed Compliance
- ✓ Certification and Assessment
- ✓ Sustainment and Compliance Support
- ✓ Authorized CE/U Provider

## Methodology

- Get **CMMC Level 2** ready with confidence
- Eliminate CUI confusion and scope risk
- Turn requirements into **provable evidence**
- Build SSPs and POA&Ms assessors can trust
- Prepare once avoid rework and surprises
- Stay audit-ready as contracts evolve

## Clarity & Confidence in CMMC

We help organizations eliminate ambiguity around CUI, align controls to real-world operations, and build governance and evidence that stand up to assessment. Through focused engagement and practical readiness support, we create a structured, sustainable compliance program with clear ownership, accurate artifacts, and repeatable processes your team can maintain. MDC keeps you audit-ready while you stay mission-ready.

## Compliance

### Core Service Offerings

- Identify CUI and define system/environment scope
- Establish leadership-approved CMMC boundaries
- Build governance structures: SRM, evidence index, owners, cadence
- Prioritize and manage POA&M activities

### Implementation & Acceleration

- Implement priority CMMC controls
- Clean up and validate evidence
- Align SSP and artifacts
- Conduct mock assessment walkthroughs

### Ongoing Advisory & Sustainment

- Maintain monthly/quarterly governance cadence
- Refresh evidence and verify controls
- Support POA&M closure and risk visibility
- Guide small/mid-sized contractors and CUI-adjacent teams toward defensible decisions
